IBICO pouchMaster Pro – *A3 Office Laminator*

Other Picture

Technical Specifications

Maximum lamination width	**324 mm (DIN A3)**
Pouch thickness (per flap)	**80 – 250 µ (per flap)**
Maximum thickness of document	**180gsm**
Maximum trough-put thickness	**2,5 mm**
Lamination speed	**190 - 530 mm/min**
Preheating time	**3-5 minutes**
Heating system	**2 hot front rollers + 2 pressure rollers**
Voltage	**230V/50Hz**
Weight	**7,5 kg Estimated**
Machine dimensions	**W550 x D260 x H120 mm Estimated**
Safety Standards	**TÜV/CE**
Product Code	**EU / UK**

Features & Benefits

- Fully flexible professional laminating system, for high volume output, ideal for all types of documents, using standard or photographic paper, with perfect results.
- Hot roller technology: 4 rollers - 2 hot front rollers provide the combination of heat and pressure, the second pressure roller set secures a perfect lamination.
- Laminates from ID to A3 (324mm)
- Laminate pouches from 75 to 250 micron (per flap)
- Carrier-optional operation
- Adjustable temperature: 6 standard settings ensure accurate temperatures for a quality finish.
- Ideal for heat sensitive papers, using GBC Easy2Stick self-adhesive pouches.
- High Speed lamination – accepts A4 High Speed pouches.
- Reverse option
- Variable speed
- Pouch counter
- Display
- Auto switch off
